Committed for Nourishing Life

Since its founding in 2013, Nourish Pharmaceutical Pvt. Ltd. has become a significant player in the global pharmaceutical manufacturing sector. Our expertise in advanced manufacturing techniques and cutting-edge scientific research enables us to produce high-quality pharmaceutical products efficiently.

We operate in diverse markets across Africa, Asia, and Latin America, including Kenya, Tanzania, Rwanda, Nigeria, Uzbekistan, Russia, Cambodia, Philippines, Iraq, Chile, and Costa Rica.

Our state-of-the-art manufacturing facilities adhere to the highest standards of production, ensuring each product we produce enhances health outcomes. At Nourish Pharmaceutical, we are dedicated to not just creating effective medications but also to improving quality of life through superior pharmaceutical manufacturing practices.

COMPANY OVERVIEW

Nourish Pharmaceutical Pvt. Ltd. is steadfast in its commitment to nourishing life through excellence in pharmaceutical manufacturing. Our global operations leverage state-of-the-art facilities and a skilled workforce to uphold stringent international regulatory standards. We focus on innovative manufacturing practices that ensure consistent product quality and availability.

By adhering to global best practices and utilizing advanced technology, we optimize productivity and efficiency, thus enhancing health outcomes across diverse markets.

Our mission is to deliver reliable and effective pharmaceutical solutions worldwide.

OUR VISION

Our vision is to be a leader in providing superior contract manufacturing and research & development solutions to top-tier pharmaceutical companies globally. We aspire to pioneer innovations that set industry standards for quality and sustainability.

OUR MISSION

At Nourish Pharmaceutical Pvt. Ltd., our mission is to enhance global health accessibility by offering high-quality, cost-effective medicines.

We are committed to:

-  Enriching the professional lives of our employees through comprehensive, ongoing training and a robust disciplinary framework that aligns with industry best practices.
-  Creating substantial value for our stakeholders, customers, investors, and the wider community, thereby contributing positively to society's welfare.

CORE VALUES

QUALITY:

We relentlessly pursue excellence in all aspects of our operations, ensuring that every department adheres to uncompromising standards of quality.

INTEGRITY:

We uphold the highest ethical standards in service delivery, stakeholder engagement, and corporate governance, fostering a culture of transparency and trust.

COMMITMENT:

Our dedicated teams are focused on fulfilling your project and supply demands with precision and consistency, adhering to the highest industry standards.

CUSTOMER SATISFACTION:

Central to our operations are our clients. We deeply value their partnership and commit to continuously surpassing their expectations, enhancing customer satisfaction through every interaction.

OUR GROWTH JOURNEY *and* MILESTONES

Since its inception in 2013, Nourish Pharmaceutical has been dedicated to delivering high-quality pharmaceutical solutions. Here are the key milestones in our journey:

- 2023**  Opened a **state-of-the-art manufacturing plant compliant with global standards** for tablets, capsules, and liquid orals.
- 2019**  Increased production capacity to 70% through significant domestic expansion.
- 2017**  Opened a small-scale manufacturing plant for tablets and liquid orals, enhancing our production efficiency.
- 2015**  Launched two pediatric products internationally, expanding our product portfolio.
- 2014**  Successfully registered our first international product, marking our entry into the global market.
- 2013**  Established as a private limited company, setting the stage for a strong market presence.

Each milestone highlights our commitment to quality and innovation, driving our mission to make essential medicines accessible globally. This ongoing journey reflects both our past achievements and our future aspirations in the pharmaceutical industry.

RECOGNITION

Nourish Pharmaceutical has garnered widespread recognition aligning with our strategic milestones. Our 2023 inauguration of a state-of-the-art facility met with accolades for global standards compliance and quality assurance.

Our innovative pediatric products launched in 2015 earned awards for healthcare innovation. The significant expansion in 2019 highlighted our operational excellence, while our commitment to sustainable manufacturing has been acknowledged with environmental awards.

Additionally, our efforts to enhance healthcare accessibility have been recognized with community impact awards. These accolades underscore our continuous commitment to excellence and innovation in the pharmaceutical industry.

MANUFACTURING

Nourish Pharmaceutical Pvt. Ltd. boasts advanced manufacturing facilities designed for peak efficiency, safety, and adherence to global standards:

-  **Streamlined Workflow Design:**
Our facility is strategically laid out to ensure a unidirectional flow of personnel and materials, Zero cross-contamination and optimizing efficiency. Each area is specifically designed for handling different stages of production within a controlled climate environment.
-  **Advanced Quality Control Laboratory:**
Featuring state-of-the-art instruments like H.P.L.C., F.T.I.R., K.F.A. and UV spectrophotometry, our QC lab conducts rigorous quality assessments. It includes specialized micro labs and stability chambers to meet stringent quality standards.
-  **Spacious Warehouse and Material Handling**
Equipped with designated quarantine and storage areas for raw materials, our facilities facilitate precise and secure management of Active Pharmaceutical Ingredients (APIs) and excipients.
-  **Advanced Cleanroom Technology:**
Our cleanroom setup with partitions and flush doors ensures a contaminant-free environment critical for maintaining the integrity of our products.
-  **HVAC System with Enhanced Air Quality:**
Classified under Class D, our core process areas feature individual AHUs with HEPA filters to maintain optimal air quality, temperature, and humidity through an automated system.
-  **Sophisticated Purified Water System:**
A two-pass Reverse Osmosis (RO) system with online sensors and Electrodeionization (EDI) guarantees the highest levels of water purity necessary for pharmaceutical manufacturing.

These meticulously designed features underscore our commitment to quality and environmental sustainability, enabling the consistent delivery of superior pharmaceutical products.

MANUFACTURING CAPABILITY

Nourish Pharmaceutical is equipped with state-of-the-art manufacturing technologies:

Granulation: Capable of processing 186 metric tons annually with sophisticated equipment like RMG, F.B.D., and Octagonal Blenders, ensuring efficient material handling via vacuum transfer.

Compression: Our facilities produce up to 1450 million tablets per year, featuring advanced tablet presses with interchangeable turrets and inline metal detection for quality assurance. Bilayer Tableting Capabilities are also available, enhancing our flexibility in tablet production.

Coating: Utilizing 48" auto-coaters with PLC-based automation and control systems, we efficiently handle lot sizes ranging from 20 kg to 180 kg. Our capabilities include handling both aqueous and solvent-based film coatings, as well as enteric and sugar coatings, meeting diverse coating requirements.

Capsule Filling: Our ACG AF90 line fills and polishes up to 500 million capsules annually, integrated with automated loading, defect detection, and metal scanning.

Liquid Oral Dosage: Fully automated production of syrups and suspensions, with complete integration of filling, sealing, and labeling processes to ensure product integrity.

Packing: Five lines with sophisticated mechanisms like high-speed blister, Alu- alu and strip packing machines, equipped with non-fill detection and 3D barcode batch coding, complement our robust production capacity.

These facilities underline our commitment to delivering high-quality pharmaceutical products efficiently, aligning with global manufacturing standards.

FORMULATION & DEVELOPMENT (F&D)

Our Formulation and Development (F&D) department is dedicated to advancing pharmaceutical innovation. We focus on:

Innovative Formulation Techniques: Employing state-of-the-art technologies to enhance the effectiveness and delivery of medications, ensuring better patient outcomes.

Rigorous Development Process: Adhering to strict testing and regulatory standards throughout development to guarantee safety and efficacy.

Patient-Centric Approaches: Designing formulations that improve adherence and minimize side effects, tailored to meet diverse patient needs.

Our F&D efforts aim to deliver superior pharmaceutical solutions that are both effective and patient-friendly, contributing to improved health outcomes worldwide.

QUALITY

Nourish Pharmaceutical is committed to delivering exceptional pharmaceutical products that consistently meet and exceed the expectations of our esteemed clients and contribute positively to humanity. Our quality policy is structured around three fundamental principles:

Commitment to Excellence: We manufacture and market high-quality pharmaceutical products, striving to fulfill the diverse needs of our clients and improve overall public health consistently.

Strict Compliance: Our operations adhere to current Good Manufacturing Practices (cGMP) guidelines, alongside national and international standards tailored to the pharmaceutical industry. This commitment ensures that every product meets stringent quality and safety benchmarks.

Customer Satisfaction: We are dedicated to enhancing customer satisfaction through the continuous improvement of our Quality Management System (QMS). Our focus is on delivering products that not only meet but exceed customer expectations through innovation and rigorous quality control.

These principles guide our actions and decisions, ensuring that quality remains at the core of everything we do at Nourish Pharmaceutical.

BUSINESS OPERATIONS

DOMESTIC

In India, Nourish Pharmaceutical is a respected name among healthcare professionals and medical institutions. Our extensive client list includes premier hospitals, clinics, and pharmacy chains, reflecting our deep integration into the Indian healthcare system. We focus on ensuring product availability and consistency in quality, backed by a comprehensive supply chain network. Our commitment to the Indian market is driven by our dedication to public health and wellness, aiming to meet the needs of a diverse patient population effectively.

INTERNATIONAL

Nourish Pharmaceutical has established a significant international presence, underlining our commitment to addressing global healthcare challenges with high-quality pharmaceutical solutions. Our operations extend across key markets in Africa, Asia, and Latin America, where we have formed strategic partnerships and built robust distribution networks. This global expansion allows us to leverage international growth opportunities, introduce our innovations worldwide, and enhance patient access to essential medicines.
